

PROJECT AND BENEFICIARIES

Name of Project	:	H.E.L.P. (Hope for Education of the Learners for Progress)
Implementor	:	Aklan State University – CHARRM Sta. Cruz Barangay Council, Sta. Cruz Elementary School, Teacher Education Faculty and Students
Beneficiaries	:	Students of Sta. Cruz Elementary School

About the Project

The philosophy of the College of Teacher Education is the development of the rational mind of the person imbued with virtues, ideals, wisdom and craft necessary to promote the desired citizenry of a democratic state. It is also our vision to be a partner of the government in developing their understanding and appreciation of every child beneficiary through children literature, songs, poems and dances. The ASU-CTE has an extension project “Adopt a Child”. The College is looking forward to make it university wide. It is on this, that ASU-CHARRM Teacher Education Program replicated and enhanced the same concept and we named it project Hope for Education of the Learners for Progress (H.E.L.P.) with the theme “Pumueuyo Kabaeakahan: Pag-iskuyla Bueuligan” literally means the Teacher Education Program cares for the stakeholders and that we will have a part in the schooling of the children thus, our benevolent help not only financially but doing enhancement lessons and activities to the recipients. The K-12 Curriculum of the Philippine Educational System SY 2011 – 2012 and this project will be a great help to the poor parents whose annual fees and school supplies of the twenty (20) recipients chosen by the Brgy. Council and the Sta. Cruz Elementary School faculty through their assessment will be sponsored by the project H.E.L.P. from grade one (1) to grade six (6). The Teacher Education Program on its 2nd and 3rd year has a Field Study subjects wherein observation to cooperating schools is mandated and on its 2nd semester we have the practice teaching. The recipient Barangay is where Sta. Cruz Elementary School located. The school is one of our cooperating schools. There were benefactors who unselfishly responded to the project and were very much willing to participate. The Punong Barangay is an alumnus of the college and the area is accessible, hence it is on this area that this extension project was materialized to be one of the Extension Project of the BSED Program of ASU-CHARRM, Ibajay, Aklan. Barangay Sta. Cruz was chosen to be the recipient of the extension services because of the desire of the Teacher Education to serve also to the pupils and parents of their cooperating schools. Sta. Cruz Elementary School has a complete grade school is located in Barangay Sta. Cruz. The proponents received a very good feedback from Sta. Cruz Elementary School on the performance of the practice teachers on the said grade school and this is where our learner recipients studied, does the choice of the recipient.
